Oculus Go

- Lightweight Headset — designed with innovative, breathable fabrics and injection foam molding
- Wide Quad, Fast-Switch LCD — dramatically improves visual clarity and reduces screen-door effect
- Next-generation Oculus Lenses — offering a wide field of view with significantly reduced glare
- Integrated Spatial Audio — speakers built into the headset, transporting you straight into VR and making the headset easy to share with someone else
- Standalone VR — no additional devices required while in VR

Oculus Rift

Rift is unlike anything you've ever experienced. Whether you're stepping into your favorite game, watching an immersive VR movie, jumping to a destination on the other side of the world, or just spending time with friends in VR, you'll feel like you're really there.

HTC Vive

HTC Vive is a Virtual Reality headset created by Valve and HTC designed to turn a room into 3D space allowing the user to walk and use motion tracked controllers to interact with and experience immersive environments.

The HTC Vive has many great features:

- **PRECISION TRACKING:** 360° motion tracking
 - **VISUAL IMMERSION:** 110° field of view
 - **REAL-WORLD AWARENESS:** Real-world elements into the virtual world
- SEAMLESS INTERACTION:** Two handheld controllers with 24 sensors for accurate motion tracking.

Discover VIVE today and see for yourself. **THIS IS REAL!**

How much space is required for the Oculus Rift & HTC Vive?

The minimum space is about 6' x 6'. The VR setup can be done anywhere with access to electricity, including outside spaces, weather permitting.

How many people can use the Oculus Rift & HTC Vive at once?

Only one person can experience VR per headset at one time, but a live feed of what the player is seeing can be displayed on a tv or projection screen for others to see. Part of the fun of VR is watching others experience VR for the first time. Additional headsets can be rented but require a tv (that you can provide) or rental of a projection screen.

Who is responsible if the equipment is broken?

All of our equipment is insured by us. An optional damage waiver fee of \$10 covers unintentional damages to 100% of the repair cost. It does not cover damages caused by negligence, loss, or theft. Renter assumes all risk of damages by choosing to forego insurance and a temporary hold for the full replacement cost of the equipment may be placed.

How long does it take to set up?

It takes about 25 minutes to set up equipment.

Does the rental of the Oculus Go require spinning chairs?

Yes a spinning chair is recommended per headset and can be rented from us.

Is there a discount on rental rates?

Yes, if a party is booked and held at our Event Center (based on availability) then the client saves \$50 off of the party package cost (for example: if the party cost is \$450, the cost would be \$400 if held at our Event Center located at 12680 McManus Blvd, Newport News, VA 23602. Any additional hour over 2 hours will be charged an hourly fee of \$25 per additional hour.

Does the \$150 deposit go toward the final cost of the party package?

Yes, the non-refundable deposit is required per booking and does apply to the final cost of the package.
