Question: how "sweet" is sweet? ***Answer:*** You know how Chick-Fil-A and McDonald's tea is so sweet it hurts your teeth? Our tea is sweet in the sense that it has a very pleasant refreshing taste, but not so sweet that it hurts. You can still taste the tea, and not just a mouthful of syrup. ***If Chick-Fil-A is a 10 on the sweetness scale, our tea is about an 8.***

OR.... see something on the Ales and Fruit Drinks list that you'd like with tea instead of citrus base? We might be able to work that up for you. Please ask!
